

2026 DMPonline Community Event

- 26 May 2026
- Introduction: Kevin Ashley, DCC Director

What today is about

- Hearing ideas from the community on potential new features for DMP systems
- Exploring and discussing them
- Potentially – helping refine or pilot them

Practicalities

- Three 45-minute slots; roughly even split between presentation and questions/discussions
- The session will be recorded – if you do not wish to be in the recording, please switch off your camera (and raise questions through the chat function)
- We will share the recordings once they are ready
- Please be respectful to speakers and fellow attendees
 - <https://www.dcc.ac.uk/events/codeofconduct>

Who are we?

- The DCC is a global centre of expertise in the curation of digital information
- A focus on helping organisations of all sorts get maximal value from data used and generated in research
- We offer
 - Training
 - Consultancy
 - Events
 - Online services
- We take part in related funded projects – e.g. Skills4EOSC, Fair Impact, FIDELIS, Fair4Health
- We work openly and collaboratively

Open for submissions - IDCC27

- Our annual conference is coming to Lisbon in 2027
- Submissions open now for papers, demos, workshops, lightning talks, posters

Remembering John Pinto

- John had been working on DMPonline for over 10 years
- Our main liaison with wider development community (DMPRoadmap)
- A source of calm and wisdom and support particularly for new staff
- Missed by all who worked with him

An outline of today's topics

- Making feedback more granular/targeted
 - Current functionality has workflow built around central research office
 - What about school/department level feedback?
- Dynamic DMP templating
 - Moving beyond conditional questions
 - Branching, nested structures and more
- Overlaying Global Organisation questions on multiple templates
 - As an organisation, there are questions you *always* want to ask
 - Wouldn't it be handy to define them and apply them to all funder templates?

Agenda

Time	What	Who
1000 - 1015	Introduction	Kevin Ashley, DCC
1015 - 1100	Feedback functionality: target schools/departments DMP feedback	Deepshikha Purwar & Richard Grimes, TU Delft
