

Improving Data Stewardship with the DMPTool: Helping Libraries Promote Data Management

Dan Phipps & Carly Strasser | daniel.phipps@ucop.edu | carly.strasser@ucop.edu

DMPTool
Build your Data Management Plan

UC3
UC Curation Center

University of California
CDL
California Digital Library

In brief: We received funds from the IMLS to build resources around the DMPTool for librarians. We want to equip librarians to provide data management services for their institution's researchers and other stakeholders

Project Goals:

- Centralize existing resources
- Provide outreach materials around the DMPTool
- Build a community of sharing ideas & resources

Why librarians?

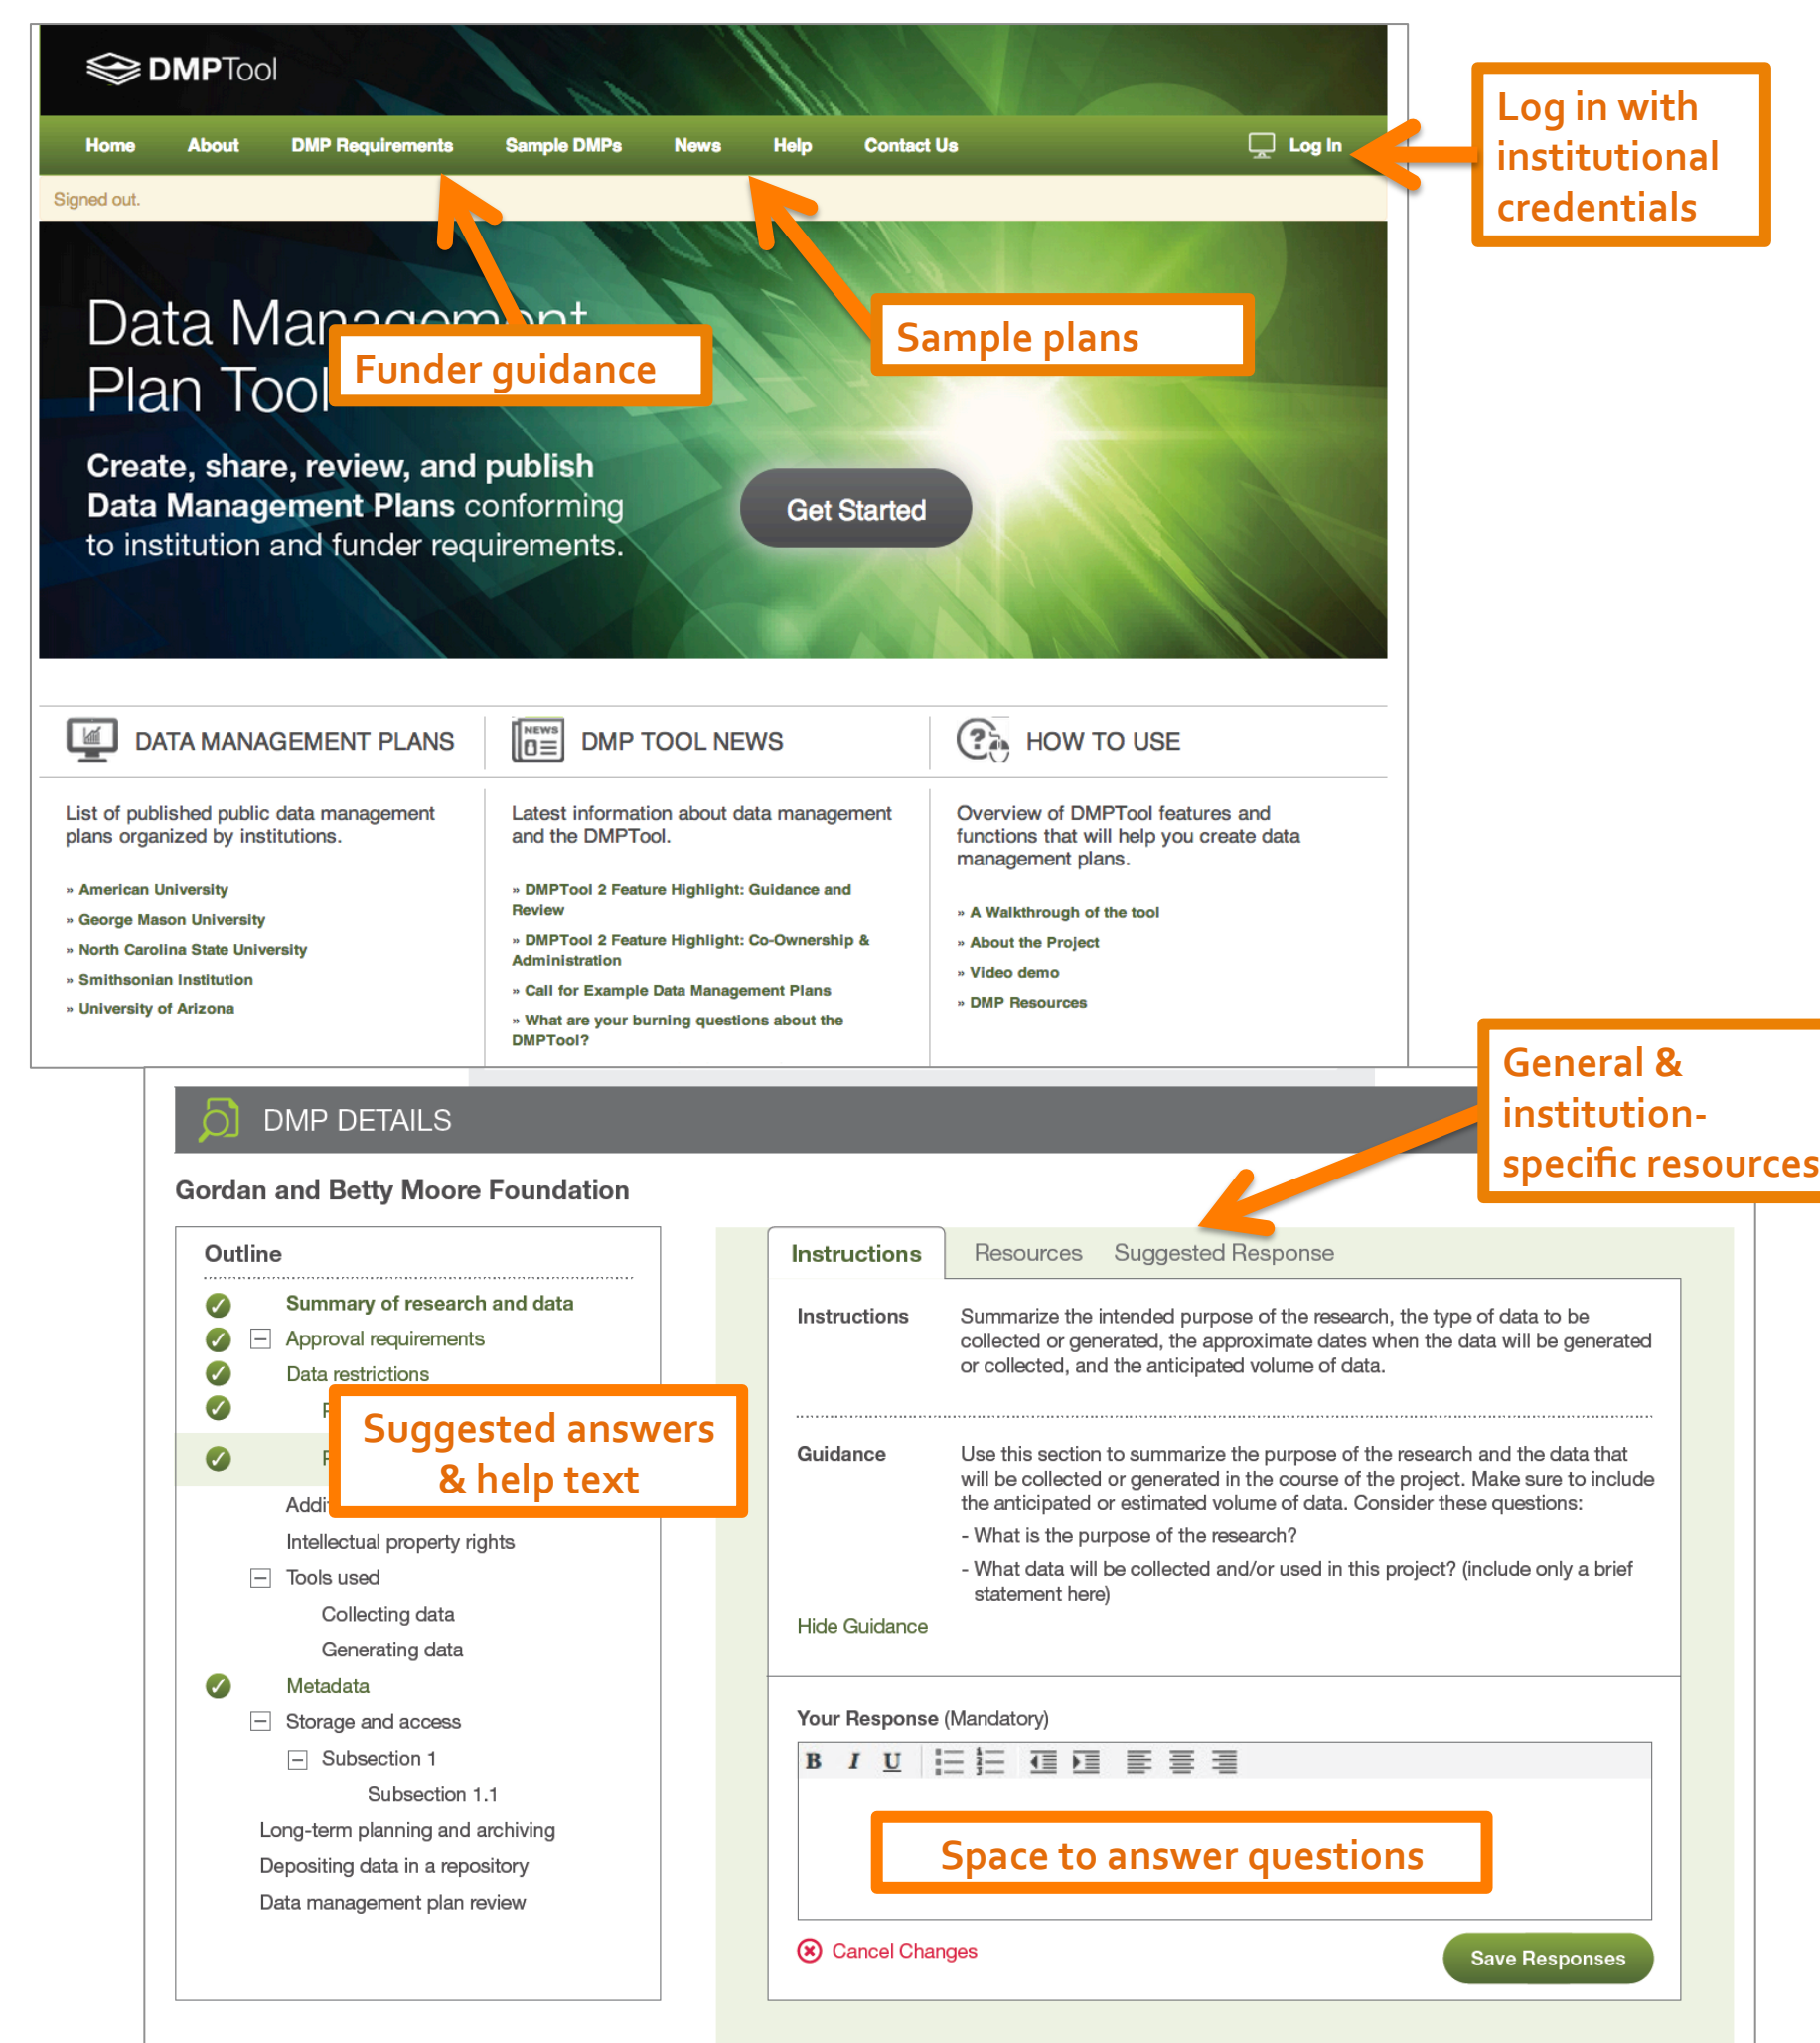

- Long-standing tradition of service & preservation
- Opportunity to fill data education void, provide valuable research support

Deliverables

- Resource Library
- Promotional materials
- Presentation templates
- Webinar series
- Outreach kit
- Blog posts
- Community

What is the DMPTool?

Free step-by-step web application for creating data management plans for funders

Coming soon: DMPTool2

**ALFRED P. SLOAN
FOUNDATION**

For administrators:

- Better plan template granularity (discipline, funder, question)
- Better institution granularity (department, college, lab group, ...)
- Role-based user authorization & access

For plan creators:

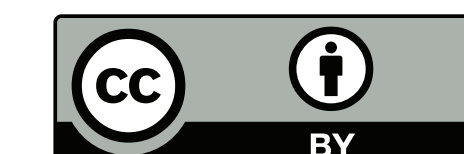

- Collaborative plan creation
- Role-based user authorization & access
- Better plan templates & resources

Plus...

- Institutional branding
- Open API

Founding partners: DataONE; Digital Curation Centre; Smithsonian Institution; UC Curation Center, California Digital Library; UCLA Library; UC San Diego Libraries; University of Illinois; University of Virginia Libraries
