

# Discussion: video data in research

- How do you use video in your research?
- Have you had any issues e.g. format compatibility, difficulty transferring large files, ethical concerns...
- Have you archived or shared your video?
  - If so, how?
  - If not, why not?
- Do you have any tips or lessons to share with others?

# Useful guidance

Jisc Digital Media - <http://www.jiscdigitalmedia.ac.uk>

Various guides covering an intro to digital video, choosing a file type, shooting video, reviews of editing software, media production, quality control, IPR issues, gathering recording permissions, online dissemination, digitisation of obsolete media...

PrestoCentre library: <https://prestocentre.org/library>

Preserving Moving Pictures and Sound by Richard Wright -
